DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. **Claims 7-18,31-44** are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With regard to cl. 7, ln. 7-8, and cl. 39, ln. 5, it is unclear how the first channel and the second channel for the node are based on a number, that is, the number of hops from the node to a distinguished node.

With regard to cl. 9, ln. 1, it is unclear how the number of hops is determined from information carried in the routing packets.

With regard to cl. 10 and 11, both in ln. 1, it is unclear what is the routing information, or is it referring to the information carried in the routing packets of cl. 9, ln.

2.

With regard to cl. 13, ln. 6, and cl. 37, ln. 6, it is unclear how to determine a channel based on responses to the reservation packet.

With regard to cl. 14, ln. 4, it is unclear what is "best greater" and whether it is the best.

With regard to cl. 35, ln. 6-8, it is unclear how the first channel and the second channel for the node are based on a number, that is, the number of hops from the node to a distinguished node and the number of available channels.

Art Unit: 2667

3. Claim 12 recites the limitation "the default gateway" in ln. 2. There is insufficient antecedent basis for this limitation in the claim.
